

# GCSE/IGCSE Maths and GCSE/IGCSE Physics

Our GCSE revision courses provide the right preparation for your IGCSE/GCSE exams. They're a proven way to achieve the best grades you can.

Everyone learns in different ways, so we tailor GCSE revision to fit your individual needs – rather than taking a 'one size fits all' approach.

After a IGCSE/GCSE revision course, you will

- Have a better understanding of your subject
- Know how to answer the question
- Be more confident in your abilities
- Understand how to study effectively, now and in the future

## *Easter Revision Courses*

### First series of tutorials

**APPLICATION DEADLINE:** March 31, 2016

**START DATE:** April 4, 2016

**END DATE:** April 8, 2016

### Second series of tutorials

**APPLICATION DEADLINE:** April 7, 2016

**START DATE:** April 11, 2016

**END DATE:** April 15, 2016

***Easter Revision Courses* comprise of 6 hours **one-to-one** online Lectures per day, plus breaks, for five days.**

Easter Revision Courses are a great way of getting the bulk of your revision done early. The revision is structured for you with the emphasis in the right places and lots of practice on past papers.

Our Easter Revision Courses are an excellent way to plan, prepare and address concerns, leaving sufficient time to fine-tune revision skills.

These Easter Revision Courses help students remain calm at a time when stress may start to build. We concentrate on proven exam techniques and clarifying students' problem areas to maximise performance in the summer exams.

## *Three Days Revision Courses*

### First series of tutorials (May Day Weekend)

**APPLICATION DEADLINE:** April 25, 2016

**START DATE:** April 30, 2016

**END DATE:** May 2, 2016

Our May Day Weekend revision courses take place over the first Bank Holiday in May, and offer an injection of knowledge and confidence, right before students face final GCSE exams.

In fact it's astonishing what a last few days 'top-up' can do for the performance of most students, no matter how detailed their revision may have been so far.

In Our May Day Weekend revision courses

- Our ETUTORME tutors boost our student's subject knowledge and show them how to approach exam papers.
- We get our students motivated and productive
- Our May Day Weekend revision courses comprise of small groups of six students on average. Small groups get students talking, making revision more interesting.
- We cover subject knowledge and exam technique, because both matter.

### Second series of tutorials (May Half Term)

**APPLICATION DEADLINE:** May 25, 2016

**START DATE:** May 30, 2016

**END DATE:** June 1, 2016

**START DATE:** June 2, 2016

**END DATE:** June 4, 2016

***Three Days Revision Courses* consist of 6 hours **one-to-many** online Lectures per day, plus breaks, for three days.**

Our ETUTORME tutors will start with the basics, clarifying key concepts and checking students are comfortable with the fundamenals.

As the course progresses, our ETUTORME tutors will build on students' existing knowledge, closing gaps, reinforcing core areas and making a huge difference to final grades. They also demonstrate how to approach exams methodically, interpret questions correctly and formulate appropriate responses.

Over our ***Three Days Revision Courses*** you will cover all key areas of the subject, focusing on those in which you feel you need most help. For instance:

- Number
- Algebra
- Shape and space

- Data handling
- Using and applying maths

for GCSE/IGCSE Maths, or

- General Physics
- Thermal Physics
- Properties of waves
- Electricity and magnetism
- Atomic Physics

for GCSE/IGCSE Physics.

Three Days Revision Courses comprise of small groups of six students on average. This is large enough to share ideas, but small enough to ensure the tutor is able to answer questions and address individual concerns.

If the whole group is with the same exam board then the group may follow a single past paper. If not, students may split into smaller groups or work individually. Different exam boards have distinct styles of questioning, so it's very important we know which board's exams you are sitting.

Because we tailor each course to fit the needs of the students on that course, there is no 'standard' lesson plan. The lesson plan is adapted to the background and needs of the students.

A May Half Term revision course is vital to final exam preparation and achieving the best possible grades. Those with early May exams should attend at May Day Weekend.

## *One Day Revision Courses*

### First series of tutorials

**APPLICATION DEADLINE:** April 20, 2016

**DATE:** April 23, 2016

### Second series of tutorials

**APPLICATION DEADLINE:** April 20, 2016

**DATE:** April 24, 2016

### Third series of tutorials

**APPLICATION DEADLINE:** May 25, 2016

**DATE:** May 29, 2016

### Fourth series of tutorials

**APPLICATION DEADLINE:** May 31, 2016

**DATE:** June 5, 2016

***One Day Revision Courses* consist of 6 hours, plus breaks, one-to-many tuition over one day.**

A day long subject specific course. The student will spend six hours (plus breaks) on a revision course for GCSE/IGCSE Maths (or Physics).

Our one day courses are designed to help students increase their understanding of the subject, bolster knowledge gained during three day courses and leave students fully prepared for their exams.

One Day Revision Courses involve a small group of six students on average. This is large enough to share ideas, but small enough to ensure the tutor is able to answer questions and address individual concerns.

Courses are led by expert tutors. Experienced and enthusiastic, they know their subjects inside out. They have detailed exam knowledge and can provide essential exam technique tips and advice.

With our *One Day Revision Courses* you get

- A clearer understanding of the subject as a whole.
- The confidence and skill to ask questions that matter.
- Ability to make links and connections between the various units/concepts.
- Inspiration to research and learn independently.

***Our ETUTORME tutors who assist pupils preparing for their GCSE/IGCSE Revision Courses in Maths and Physics are Britain's top 5% academics – PhDs, Lecturers, researchers in Mathematics with extensive teaching and lecturing experience from leading UK universities such as Cambridge, Oxford, UCL, Imperial, KCL, QMW and many more.***

Our ETUTORME tutors

1. Work through past papers and receive useful, meaningful feedback.
2. Address the topics which cause you most difficulty.
3. Work through model solutions from past exam papers.
4. Go through mark schemes to bring to the fore what examiners require.
5. Give guidance on specific exam techniques and tips.

Moreover, in all cases

- Students may work through previous exam papers, both independently and as part of the revision group.
- Students study resources and then discuss and describe topics in full.
- If students require grounding in fundamental areas, the tutor may present a subject in full.

At ETUTORME.UK many of the GCSE/IGCSE Revision courses are for a particular board and specification, so you're in groups where everyone is studying exactly the same specification.

Our tutors provide valuable support and guidance that can enable our students perform to the best of their abilities and excel as top students in their curriculum.

In all cases we take into account the background of our students and design programs of studies tailored to their needs.

Before a course takes place, we contact all the students who are taking part, asking them what areas they would like to see us cover. This allows the course tutor to tailor the course content and materials to meet those needs. It means students can be sure we'll cover the areas that matter most to them.

**The GCSE/IGCSE revision courses are offered on the following dates and at the following times:**
